

Report: Class 5C Special Assembly

Date: April 23, 2026

Theme: Earth Day & World Book Day

Presented by: Class 5C

Class 5C put on a great show for morning assembly. They talked about two important things: **World Book Day and Earth Day.**

Students began with a quiet prayer to start the day. After that, students gave a short talk to explain why we need to take care of our planet and why reading books is so much fun.

Next, the students recited a poem called "Dharti Ki Pukar." They spoke about how our Earth is getting hurt by pollution. It was a very sweet and serious poem that reminded us all to plant more trees and keep our surroundings clean.

Then, two students gave a speech on World Book Day. They told us that books are like best friends because they take us on adventures without us even leaving our seats.

Few students prepared a skit on book day. Some students dressed up as judges and lawyers. They had a "trial" to see if books are still important. In the end, the judge decided that books are still the best way to learn and imagine things!

The assembly ended with everyone feeling excited to go to the library and do something good for nature.
